

# Introduction to Programme Management

## Course Information

### Introduction:

MSP<sup>®</sup> (Managing Successful Programmes) represents proven programme management good practice in the successful delivery of transformational change through the application of programme management. MSP<sup>®</sup> defines programme management as "the action of carrying out the coordinated organisation, direction and implementation of a dossier or projects and transformational activities to achieve outcomes and realise benefits of strategic importance to the business"

This one-day course is aimed at introducing programme management to individuals who are responsible for managing, governing or taking an active role in (based on the MSP<sup>®</sup> methodology) and explores some key controls and tools to successful delivery.

### Course Duration:

1 day

MSP<sup>®</sup> is a Trade Mark of the Office of Government Commerce
